Matt Welter

Updated January 27, 2021

Why me?

I'm a full-stack designer & an avid learner.

"Matt is a rare hybrid talent of design, development, and critical thinking skills. His curiosity and dedication to meeting deadlines allowed him to be very successful in the work we assigned him."

– Anthony F, Partner at Oxy Design Co

Chapter One

Internship Design Work

Tasks

I was a design intern from June 2020 to January 2021. I was tasked with creating wireframes, designing UI for websites, packaging client deliverables, and developing brand guides for clients.

Work

I was not fully immersed in every project I worked on.

Sometimes I would jump in the middle of a project or only work on one part of a larger project.

Setting

95% of my work was done remote. Sometimes I would go into our WeWork office in August and July.

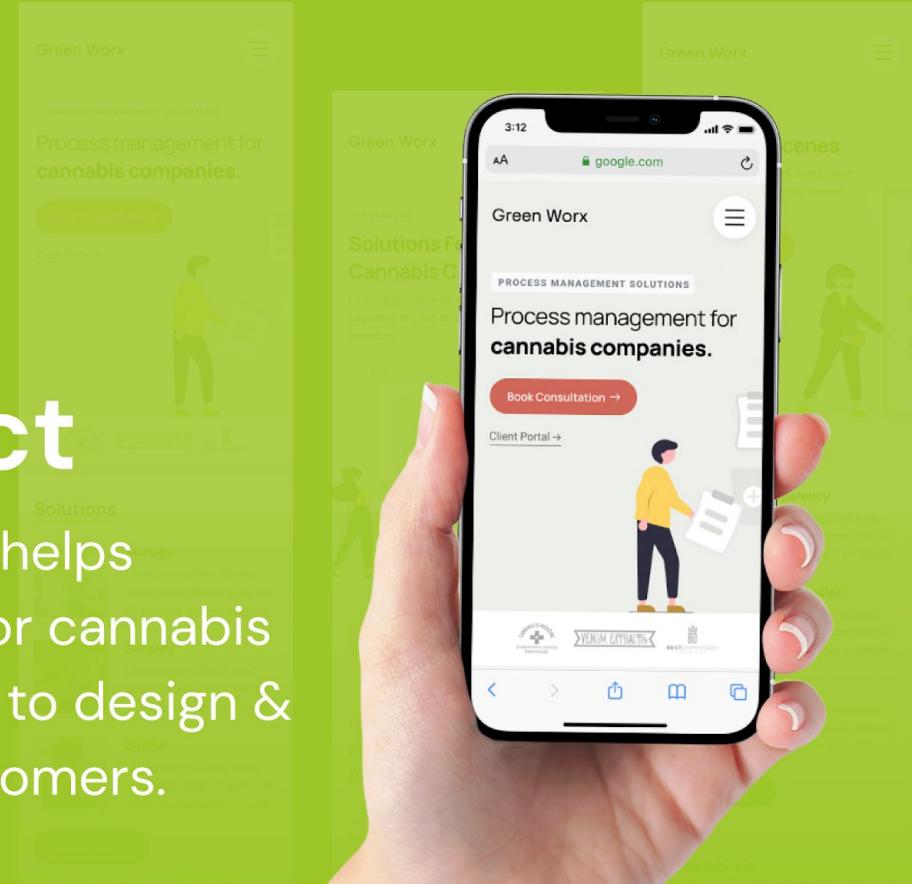

NOV 2020 – JAN 2021

GreenWorx

About The Project

GreenWorx is a B2B company that helps streamline process management for cannabis companies. Our agency was asked to design & build a website to attract new customers.

Summary Of My Role

I was assigned to wireframe the site layout and to design & present high fidelity designs for the final product.

Internship Design Work

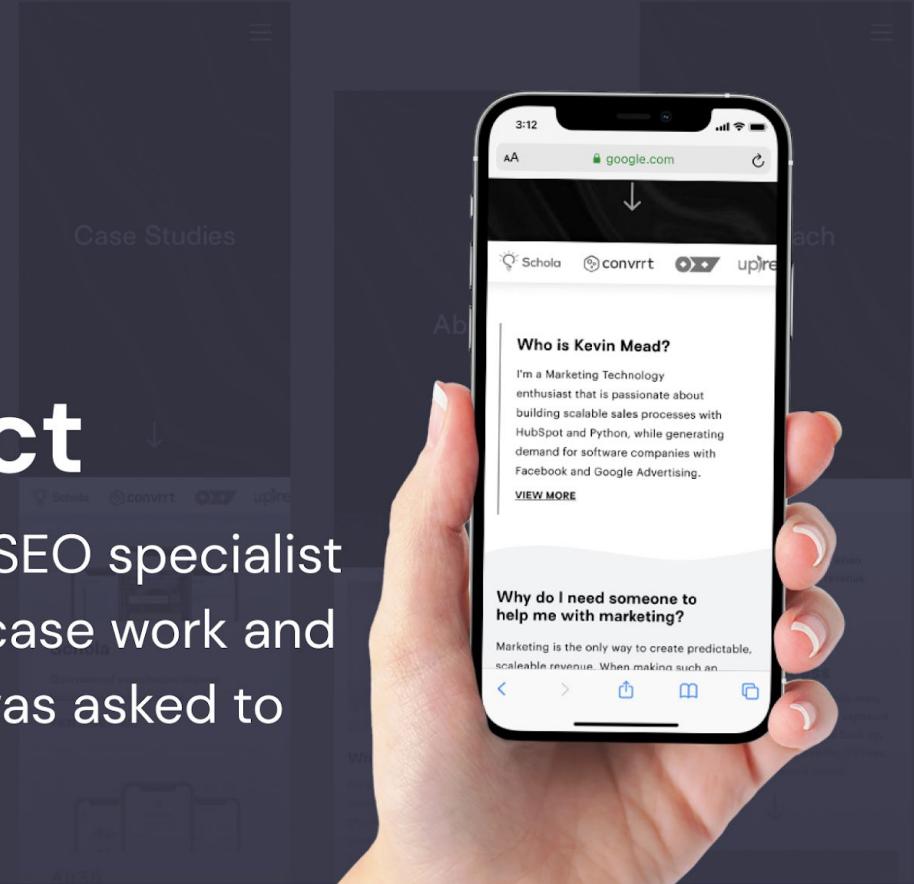

AUG 2020 – OCT 2020

Kevin Mead Portfolio

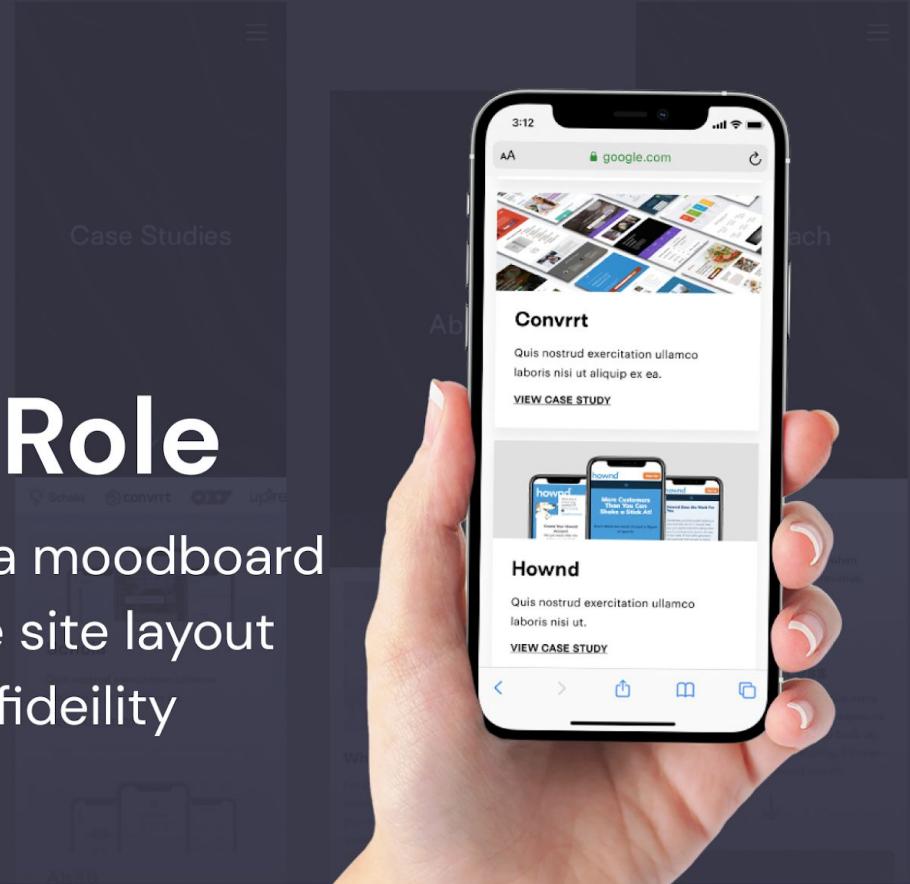

About The Project

Kevin Mead is a SaaS marketing & SEO specialist looking to have a website to showcase work and attract more clients. Our agency was asked to design & build a website for Kevin.

Summary Of My Role

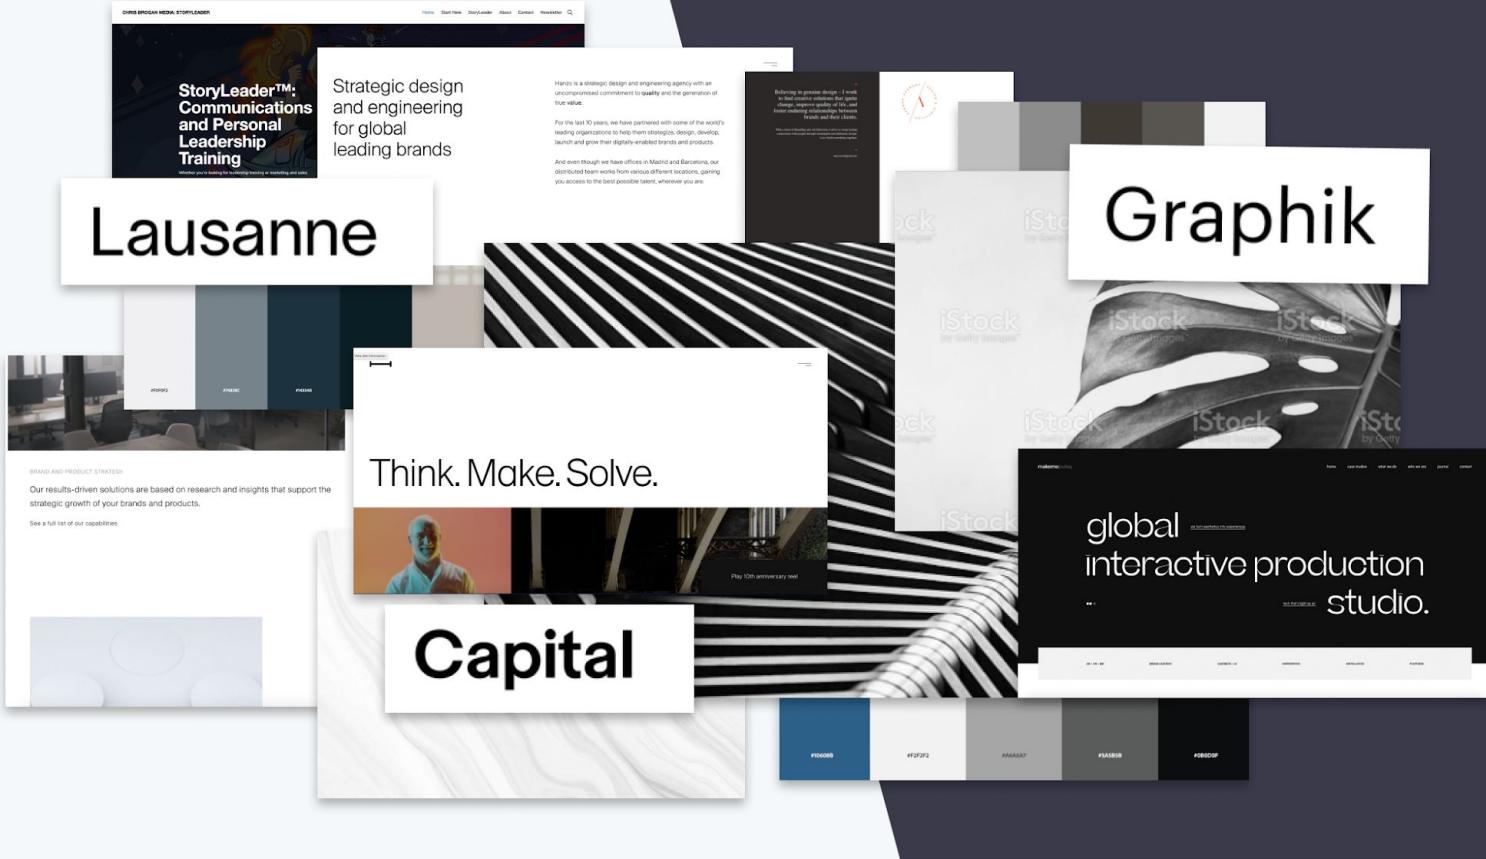

I was assigned to collect & curate a moodboard for design inspiration, build out the site layout (wireframing), and to present high fideility designs for the final product.

KEVIN MEAD

Moodboard Design Inspiration

I chose a minimal, monochromatic feel for Kevin's website. This minimal aesthetic gives his marketing & SEO services a modern, "quiet but bold" feeling of confidence.

KEVIN MEAD

Style Tiles

The image displays a 4x3 grid of 12 wireframe prototypes for a website page. The top row shows variations of the hero section, which features a large title 'Strategic marketing for SaaS products' and a portrait of a man (Kevin Mead). The middle row shows variations of the case study section, including text descriptions and a testimonial from Kevin Mead. The bottom row shows variations of the footer section, which includes a 'Strategic marketing for SaaS products' heading, a testimonial, and a contact form.

The image displays a collection of ten website screenshots arranged in a grid-like pattern, illustrating a design concept for a SaaS marketing website. The website features a dark background with white text and light-colored images. Key elements include:

- Header:** A navigation bar at the top with links for "CASE STUDIES", "APPROACH", "ABOUT", and "BLOG".
- Hero Sections:** Multiple sections for "Strategic marketing for SaaS products" featuring a portrait of a man (Kevin Mead) and descriptive text.
- Testimonials:** A section with a quote from Kevin Mead: "Kevin was able to transform my businesses conversion rate from 3.9% to 22% in 8 weeks".
- Hero Images:** Large images of a mountain range and a person working at a desk.
- Content Areas:** Sections with headings like "Strategic marketing for SaaS products" and "Heading", "Sub-Heading", and "Text".
- Call-to-Action:** A prominent red button labeled "Get started now".
- Footer:** A footer section with a quote from Kevin Mead: "Kevin was able to transform my businesses conversion rate from 3.9% to 22% in 8 weeks".

The collage includes:

- A dark-themed landing page for "Strategic marketing for SaaS products" featuring a portrait of Kevin Mead and a testimonial from Robert Howard.
- A blog post by Kevin Mead titled "Why do I need someone to help me with marketing?" with a sub-section about Hubspot integration.
- A section titled "Our Process" with steps: Refine the Sales Process, Validate Revenue, and Marketing &...
- A frequently asked questions (FAQ) section with topics like "How Fast Can I See Results?", "Why Do I Even Need Demand Generation?", and "What Metrics Are Important To Improving My Sales Team?".
- A sidebar with service categories: Verticals (SaaS Marketing, CRM Admin, Marketing), Approach (Content Marketing, Lead Generation, Landing Pages, White Label Marketing), Services (SaaS Marketing, CRM Admin, Marketing, Lead Gen, Content Marketing, SEO, Paid Advertising, Social Media, Email Marketing, PPC, Inbound Marketing, Direct Mail, Marketing Automation, BigCommerce, Small Business Consulting), and Digital (LinkedIn, Twitter, LinkedIn).

CASE STUDIES APPROACH ABOUT BLOG

Strategic marketing for SaaS products

Kevin Mead

I'm a Marketing Technology enthusiast that is passionate about building predictable sales processes. I've worked for brands while generating demand for software companies with Facebook and Google Advertising. I'd love to discuss how to make your business more scalable.

Schola convert upRecruit UQuick Qwick

Why do I need someone to help me with marketing?

Marketing is the only way to create predictable, scalable revenue. When making such an important investment in your company, doing it yourself or choosing the wrong partner will waste valuable resources and take you further from your goal.

Kevin's custom Hubspot integration has been an invaluable tool for the team at Alt Thirty Six.

—Richard Thorne, Alt36, Head of Product

Our Process

I put revenue and results first. While many marketing consultants will promise exposure of your brand with no numbers to back up, you'll always know if we're winning. I'll even build the scoreboard myself!

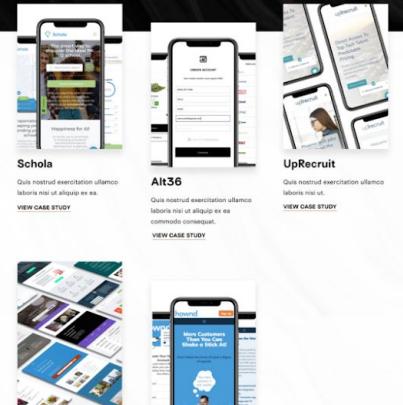

Validate Revenue

Marketing can feel like it's not doing much. If you want to prove the numbers, then my goal is to show you an ROI so you can confidently invest in marketing knowing you'll hit the goals you need to show your boss is onboard.

The image displays five sequential screenshots of a mobile website, likely from a landing page or a series of informational pages. The background is a dark, wavy pattern. Each screen features a large downward-pointing arrow in the center.

- Screenshot 1:** The title "Strategic marketing for SaaS products" is displayed. Below it is a "Who is Kevin Mead?" section with a bio and a "VIEW MORE" button. At the bottom, there's a "Why do I need someone to help me with marketing?" section with a bio and a "Marketing is the only way to create predictable," note.
- Screenshot 2:** The title "About" is centered. Below it is a portrait of a man (Kevin Mead).
- Screenshot 3:** The title "Case Studies" is centered. Below it is a "Schola" case study section featuring two phones displaying the app interface.
- Screenshot 4:** The title "Approach" is centered. Below it is a "Mission" section with a bio and a "The Process" section with a bio.
- Screenshot 5:** The title "SaaS Marketing" is centered. Below it is a "What is SaaS Marketing?" section with a bio and a "Why do I need someone to help me with SaaS Marketing?" section with a bio.

At the top of each screenshot, there are three small circular icons: Schola, convrrt, and uplre.

Who is Kevin Mead?

I'm a Marketing Technology enthusiast that is passionate about building scalable sales processes with HubSpot and Python, while generating demand for software companies with Facebook and Google Advertising. I'd love to discuss how to make your business more scalable.

Why do I need someone to help me with marketing?

Marketing is the only way to create predictable, scaleable revenue. When making such an important investment in your company, doing it yourself or choosing the wrong partner will waste valuable resources and take you further from your goal.

Kevin's custom Hubspot integration has been an invaluable tool for the team at Alt Thirty Six.

— Richard Thorne, Alt36, Head of Product

The Process

I put revenue and results first. While many marketing consultants will promise exposure of your brand with no numbers to back up, you'll always know if we're winning. I'll even build the scoreboard myself!

The Process

I put revenue and results first. While many marketing consultants will promise exposure of your brand with no numbers to back up, you'll always know if we're winning. I'll even build the scoreboard myself!

Validate Revenue

Marketing can feel like it's not doing much if you don't have the numbers to back it. My first goal is to show you an ROI so you can confidently invest in marketing knowing you'll hit the goals you need to show your boss or board.

Refine the Sales Process

Leads are only as good as your sales team. I play sales like Moneyball. Let's know all your numbers and test experiments that improve your sales cycle and increase your sales per month without more overhead.

Floatology

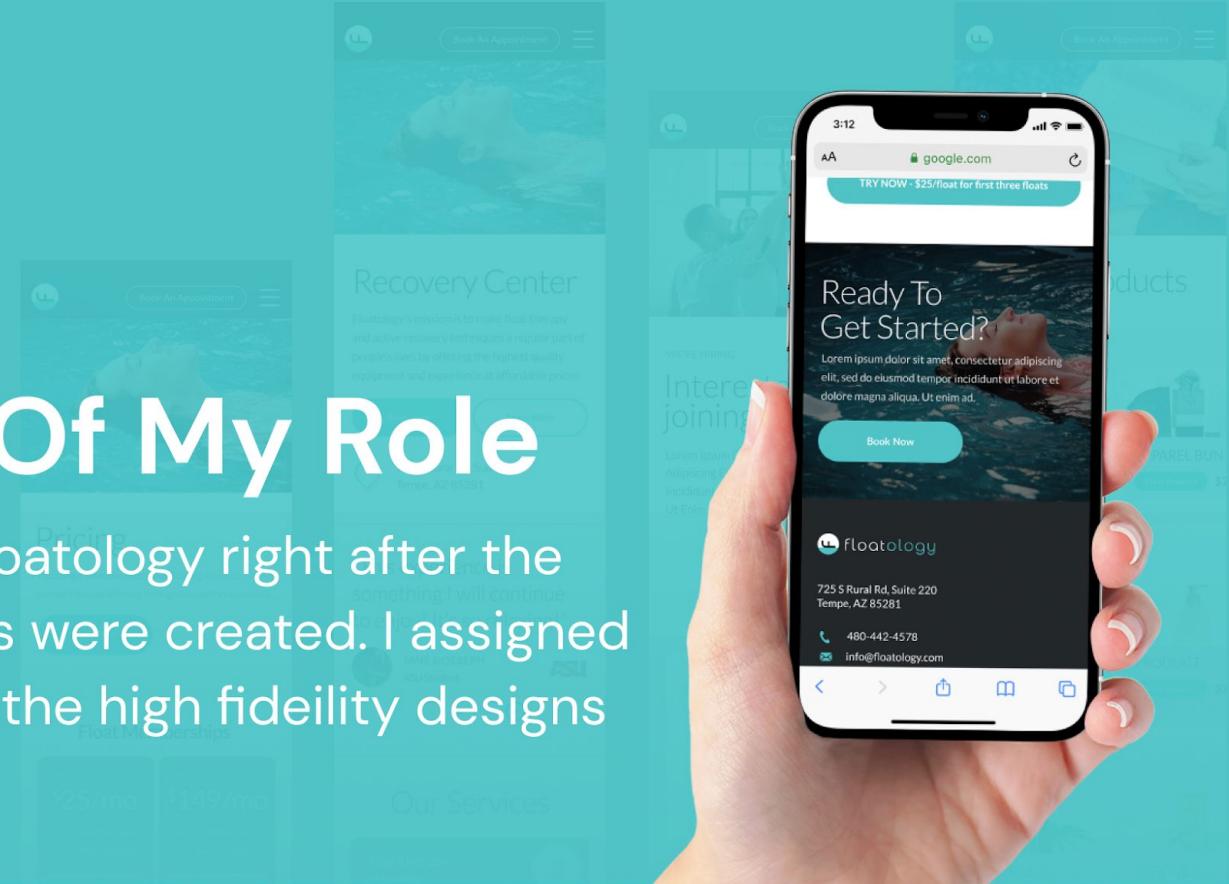

About The Project

Floatology is a therapy & sensory deprivation float tank spa. Our agency was asked to redesign their website within their already existing brand guidelines.

Summary Of My Role

I was introduced to Floatology right after the low fidelity wireframes were created. I assigned to design & finish out the high fidelity designs for their website.

How Do You Prepare?

Some Floaters Avoid Shaving/Hairing, Excess Tanning, Or Any Other Activity That May Increase The Sensitivity Of The Skin For 10-14 Hours Prior To A Float. Shaving The Face Is Highly In Issue However, As The Face Is The Only Part Of The Body That Is Exposed To The Air Inside The Float Chamber, It Is Best To Shave The Face At Least 24 Hours Prior To Your Session. Don't Allow Hunger Or Thirst To Prevent You From Being Able To Relax And Enjoy Your Float. Having A Small Meal An Hour Or Two Prior To The Appointment Is Probably Ideal For Most People. Drinking Alcohol Before A Float Session Is Not Recommended As The Effects Of Alcohol On The Body Are Very Different, So Please Pay Attention To Your Body And Use Common Sense.

Most Floaters Find That The Following Factors Will Directly Impact Their Relaxation. Please Pay Attention To Your Body And Do What Is Best For You.

Use The Restroom As Needed Prior To Floating.

If You Are A Smoker, Please Note That Smoke Relaxes From Floating Until The Cigar Has Completely Burnt. Which Can Take 1-4 Hours.

If You Have Any Other Questions Or Concerns, Please See Our FAQ'S Or Give Us A Call To Speak To An Employee.

FAQ's

How Do You Prepare?

Some Floaters Avoid Washing/Showing, Exercise Training, Or Any Other Activity That May Increase The Sensitivity Of The Skin. For 24-36 hours Prior To A Float, Drinking The Fair Is Rarely An Issue However, At The Height Of The Season, It Can Be A Problem. Don't Allow Hunger Or Thirst To Prevent You From Being Able To Relax And Enjoy Your Float. Having A Small Meal An Hour Or Two Prior To The Appointment Is Probably Best For Most People. Also, Make Sure You Are Properly Dressed. Wear Light Clothing, Such As A T-shirt, Shorts, Or A Gown. Everyone Is Different, So Please Pay Attention To Your Body And Use Common Sense. If You Are Not Sure About What To Bring, Please Call Us. We Will Let You Know What Items Will Most Impact Your Relaxation. Please Pay Attention To Your Body And Do What Is Best For You.

MMJ

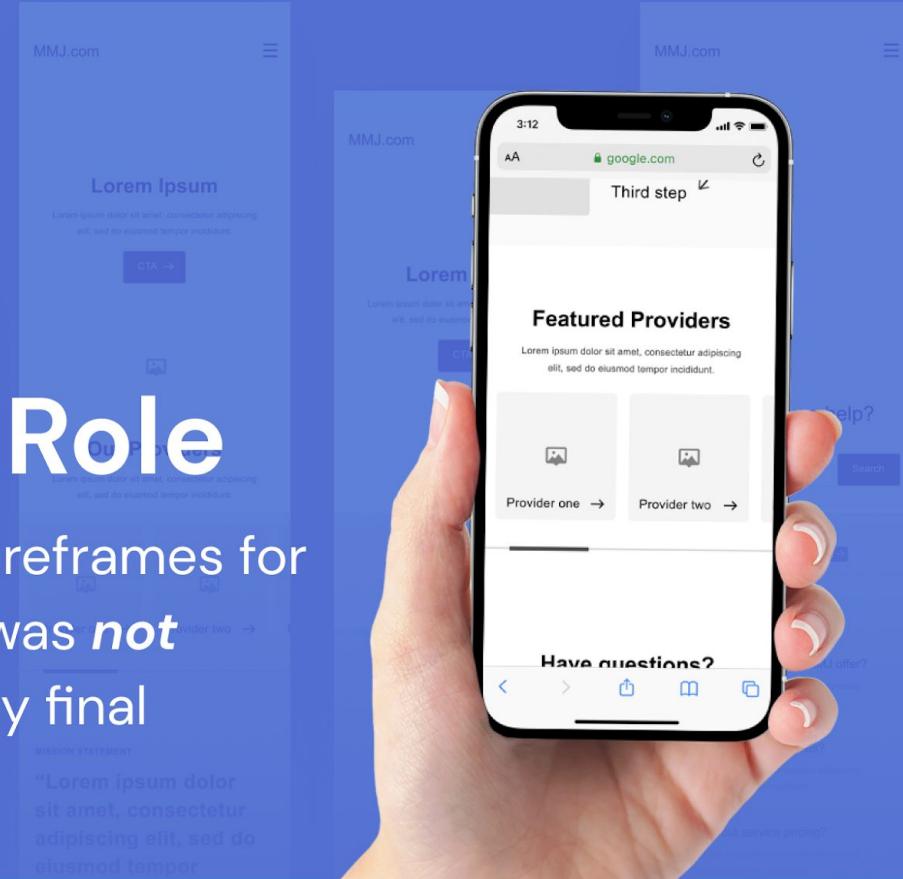

About The Project

MMJ is a company that streamlines the process of purchasing a medical marijuana card for patients that need it. Our agency was asked to design their website & patient portal.

Summary Of My Role

I was tasked with developing UX wireframes for their website and patient portal. I was **not tasked** with developing high fidelity final designs.

The image displays five sequential wireframe prototypes of a mobile application interface for the domain MMJ.com. Each prototype shows a different stage of design, from a simple landing page to a complex service-oriented interface.

- Prototype 1:** Shows a header with the URL "MMJ.com" and a menu icon. Below is a section titled "Lorem Ipsum" with placeholder text and a "CTA →" button. At the bottom, there's a "Conditions MMJ Treats" section listing three items: "Condition one", "Condition two", and "Condition three", each with a small image icon. A "View More Conditions →" button is at the bottom right.
- Prototype 2:** Similar to Prototype 1, but the "Conditions MMJ Treats" section is replaced by a "Our Providers" section featuring two providers: "Provider one" and "Provider two", each with a small image icon and a "→" button.
- Prototype 3:** Shows a header with the URL "MMJ.com" and a menu icon. Below is a section titled "Lorem Ipsum" with placeholder text and a "CTA →" button. A large central callout box contains the text "Become Licensed with MMJ" and three steps: "First step", "Second step", and "Third step", each with a small image icon and a downward arrow indicating flow.
- Prototype 4:** Shows a header with the URL "MMJ.com" and a menu icon. Below is a "Frequently Asked Questions" section with a search bar and a "Search" button. It includes a "Hello, how can we help?" heading, a "Jump to category" section with buttons for "SERVICE →", "PROVIDERS →", and "MMJ →", and a "Service" section with questions like "What kind of services does MMJ offer?", "Question about more services?", and "Question about service pricing?".
- Prototype 5:** Shows a header with the URL "MMJ.com" and a menu icon. Below is a "Our Features" section listing three features: "Feature one", "Feature two", and "Feature three", each with a small image icon. A "View Features →" button is at the bottom right.

your project. Once a profile is filled out, WSN uses our team members to evaluate your request and find qualified contractors that would work best serving your church.

After a church makes a service request, the local WSN team member will contact you directly, either via phone or email, to discuss the church's needs, and service them off site.

Once a project is booked, our clients receive a confirmation email, and a communication from our team member that will serve your church. Our team member will keep you updated throughout the process, and make sure you are charged the cost of the live musicians needed before the project begins.

When a service is finished for the church, the WSN administrative team will be focused on how we can accommodate the next request. We encourage you to be sending a feedback survey, so that we can better serve you in the future.

If you need us, we're your resource for sustainability and financial freedom.

About The Project

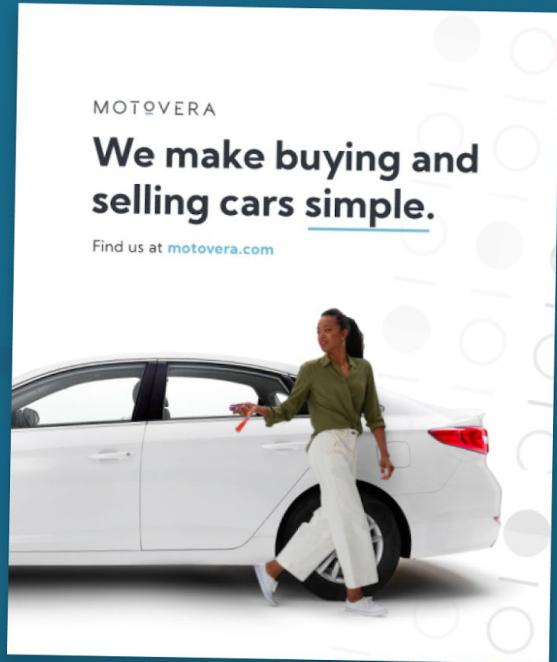

Motovera makes buying and selling cars simple. Our agency was asked to rebrand their design language in order to construct a brand guideline.

Chapter Two

Business/Personal Projects

Overview

Aside from design work, I am very interested in business, innovation and entrepreneurship. The following slides are projects I've started working on/are currently working on.

APRIL 2019 – PRESENT

University Street Market

Problem

As a freshman at ASU during Fall 2017, I kept seeing influencers on Instagram going to local flea markets in LA to buy trendy clothing for cheap. I wanted that for Phoenix but **all the flea markets around town were either too far (I didn't have a car at the time) or were non-existent.**

Assumptions

My assumption was that **I wasn't the only student at ASU that felt this way**, which is why I decided to put the event on campus. My goal was for undergraduate students to be able to buy cheap trendy clothing within walking distance of their dorms.

Solution

My assumption waas 100% right. Undergraduate students were very interested in purchasing clothes from local resellers on campus. Even during the first event, I had vendors and students coming up to my business partner and I to keep making these events.

About The Project

University Street Market is a monthly on-campus, sustainable clothing street market for college students. We bring local clothing resellers to college campuses for students to shop cheap & trendy clothes.

Initial Process

I spent 4 months between December 2018 til March 2019 talking with ASU students, local clothing vendors, ASU departments, and student organizations to understand the process of how to get an event on campus. **I eventually ended up securing an event for April 4th, 2019.**

1st Event

Our first event hosted 5 clothing vendors from 9am til 1pm. We charged \$60 per 10x10 space (\$300 total) which ended up all going towards fees, I lost \$60 in the process. The **5 vendors profitted \$3000** in 4 hours.

2nd Event

Our second event was on October 29th, 2019. We hosted 7 clothing vendors from 9am til 5pm. We charged \$100 per 10x10 space (\$700 total). The **7 vendors profitted \$7000** in 9 hours.

3rd Event

Our third event was on December 4th, 2019. We hosted 12 clothing vendors from 9am til 5pm. We charged \$125 per 10x10 space (\$1500 total). The **12 vendors profitted \$15,300** in 9 hours.

4th Event

Our fourth event was on January 29th, 2020. We hosted 16 clothing vendors from 9am til 5pm. We charged \$125 per 10x10 space (\$2000 total). The **16 vendors profitted \$15,500** in 9 hours.

5th Event

Our fifth event was on February 19th, 2020. We hosted 17 clothing vendors from 9am til 5pm. We charged \$125 per 10x10 space (\$2,125 total). The **17 vendors profitted \$16,000** in 9 hours.

6th Event

Our sixth event was on March 4th, 2020. We hosted 19 clothing vendors from 9am til 5pm. We charged \$125 per 10x10 space (\$2,375 total). The **19 vendors profitted \$15,000** in 9 hours.

COVID

March 4, 2020 was our last event. As a public event on a university campus, **we had to shut down all future events** while hoping to reopen for Fall 2020. Between our last event and today (January 27, 2021), **we have attempted at hosting events 4 different times since then, all of which have failed.**

COVID

Our closest attempt was for an event on February 14, 2021, but even that fell through. **We were approved by ASU to host an event but with ASU's imposed COVID guidelines, it was in no one's favor to host the event.** Bad location, maximum 20 attendees, fees were too high, ASU personell monitoring event, and ASU requesting a list of all attendee's names, phones, emails, and time of arrival.

What I've Learned

I learned that public events are not easy to set up during a global pandemic. But for real, **I've learned real world managerial skills, print design, digital marketing, communication & organization, and on-site event management.**

APRIL 2019 – PRESENT

Why?

I started teaching myself Python during Fall 2020 so I can use that experience towards future business endeavors. Instead of learning the basics, I decided to create an Instagram bot farm & IG Live to YouTube. Between the two, I stuck to IG Live to YouTube for one reason...

The Real Reason Why

Passive income. During April 2020, I was making money from screen recording & uploading celebs Instagram lives to YouTube. This project / program is my attempt automate that process for passive income.
